

THE LAWG 647 MODEL
PRESENTS TRENDS AND REVERSALS

For week of

2017-06-11

For the past many years we have relied on our in-house long-term model to help us in identifying the long-term underlying trends, and projecting the weekly closing prices needed to reverse those trends. Like all models, ours is not perfect or always correct but we find that it provides us with valuable information and helps in formulating our trading strategy.

WORD TO THE WISE

Past performance is not indicative of future results. The information contained in this report is intended for informational purposes only and is the opinion of the writer and may change at any time. This information was compiled from sources believed to be reliable but accuracy cannot be and is not guaranteed. There is no warranty, expressed or implied, in regards to this information for any particular purpose. There is SIGNIFICANT RISK involved in trading futures and or options on futures and may not be suitable for all investors. Investors should consider these RISKS and evaluate their suitability based on their financial conditions. No one should ever consider trading futures or options on futures with anything other than RISK CAPITAL. This information is provided freely and is NOT in the capacity of a trading advisor.
